

CDK Partner Program

Using eStore for Dealer Authorization

Step 1: Click on Vendor URL

 **CDK Global**

Please follow the steps below to authorize a CDK approved partner to have access to your CDK DMS data.

STEP 1: Log completely out of DealerSuite and close all Internet browser windows. Do not log into DealerSuite before clicking on the partner URL.

STEP 2: Click, type or copy/paste the URL that the partner provided to you. If you do not have a URL that begins with "https://portal.dealersuite.com/eStore..." please contact the partner to obtain a partner-specific URL.

STEP 3: Enter your existing DealerSuite ID and password, then click "log in." If you do not know your DealerSuite login and/or password, please use the "Forgot Login" or "Forgot Password" options on the DealerSuite login page. If you are still having issues logging in or you need a login created, please use Service Connect on your CDK desktop and select DealerSuite as the "area of impact" to open a case or you can select "Chat with Support" to connect with a DealerSuite associate.

STEP 4: Once logged in, click "Click here to view available CMF(s)..." at the bottom of the page.

STEP 5: You will see the CMF number(s) that are authorized and unauthorized for your User ID. This is for information only; you will be able to select specific CMFs later in Step 9. Continue by clicking "Start Enrolling."

STEP 6: Review and select the appropriate product.

STEP 7: Click on "Addendum PDF." Please open and review before proceeding. The information is for your review and includes a summary of the data the partner will be able to access.

STEP 8: Click "Add to Cart" (quantity of 1) on the upper right side of the screen.

STEP 9: Confirm the quantity for your order, click "Continue Shopping" if you need more than one product. Then print your order if desired, and click "Check Out." There is no charge for this authorization process and your purchase will display a price of \$0.00.

3 Evolving the Automotive Retail Experience

Type or click on the link supplied by your vendor. **Please note that you must have a title in the list of Authorized Signers, which can be requested from your vendor. You must also be completely logged out of DealerSuite before clicking on the Vendor URL.**

If you'd like to see how eStore works **without creating a valid order**, click on the URL supplied by your vendor and use **"OMTeStoreDemo"** as the user ID and password (password is case sensitive). This will mimic the process as a Demo user that will allow you to complete the process and create a Demo order.

Please note that this Demo order cannot be used for the integration approval and a second approval completed by logging in with your actual eStore login will be required before the integration can be set up.

Step 2: Log On

Enter your existing DealerSuite ID and password, then click “log in”.

- If you do not know your DealerSuite login or do not have one, or you have multiple locations, please use the forgot username or forgot password options or contact DealerSuite Support using Service Connect on your CDK desktop.

The screenshot shows the CDK eStore interface. The top navigation bar is black with 'CDK eStore' on the left and a user profile icon on the right. The left sidebar contains links: ESTORE HOME, SHOPPING CART, MEMBERS HOME, and HELP. The main content area has a red warning banner at the top. Below it, a message states that the authorization process relates to the transfer and accessing of confidential information and consumer related data. A 'Dear Dealer:' salutation is followed by a welcome message to the CDK's Third-Party Access Program, explaining that dealerships own their data and can choose how to share it. A bulleted list of benefits is provided: improved security, faster data transfer, and the ability to disable access to the DMS at the user's request. The message continues by stating that access requires completing an authorization process, including reviewing and agreeing to an Addendum to the CDK Master Services Agreement. Contact information for Howard Gardner, Vice President and General Manager of CDK Data Strategy Group, is provided. At the bottom, a blue hyperlink is present: 'Click here to view available CMF(s) for product(s) to be selected and start enrolling.'

- At your request, access to your DMS can be disabled
